Subject: General Availability Announcement for CA Mainframe Network Management Suite 12.1 S1507

On behalf of CA Technologies, we appreciate your business and the opportunity to provide you with high-quality, innovative software and services. As part of our ongoing commitment to customer success, we regularly announce updated releases and maintenance for our products.

Today, we are pleased to announce the availability of the CA Mainframe Network Management Suite Release 12.1 S1507. This Service Update includes all maintenance published prior to this update. This S1507 level installs CA Network Management Suite 12.1 at the CA Recommended Service (RS) 1507 level. By installing this Service Update, you ensure that your systems are current on maintenance for your CA NetMaster® 12.1 products.

For detailed information concerning this Service Pack, up-to-date support information, and the latest technical bulletins, please visit the appropriate CA Network Management product information page on the [CA Support Online website](#):
