

CA - MSPLC

Mainframe Security Product Line Community (MSPLC) CHARTER

I. MSPLC GOAL

The goal of the MSPLC is to provide a forum for bilateral communication enhancing the users' experience while leveraging CA technology. The MSPLC is the global virtual CA customer community focused on CA security technologies, including CA ACF2, Top Secret, and Cleanup.

II. MSPLC MEMBERSHIP CRITERIA

MSPLC membership is open to CA Management Mainframe software devotees and customers. MSPLC members may also lead or participate in international or regional CA User Groups.

III. MSPLC STRUCTURE

Leadership and guidance for the CA MSPLC and its membership will be the responsibility of the members and elected governing board.

MSPLC meetings will be held quarterly via conference call &/or webcast at a time mutually determined by the membership.

IV. CA SPONSORSHIP

CA fully endorses and encourages participation in the MSPLC since this group helps ensure the active and ongoing communication between customers, development, and support. Subsets of this community can also meet locally, regionally, or via conference calls. CA will provide resources that further such communication (e.g., speakers, conference calls, webcasts, funding, etc.).
