Open Issues from Previous meeting:

1. None

DAR Update:

1. CA SCM (Harvest), Tony Cochran – CA Technologies has responded to 4 of our Top 5 CA SCM (Harvest) enhancement requests.
2. CA Endevor, Jam Grimes – No updates from Becky Douglas, the INUGE DAR Coordinator
   a. Kevin Grimes – Rose Sakach will speak the Endevor user group presidents at the next INUGE meeting on May 18th to discuss some changes to the Endevor Enhancement Request (ER) procedure.

Open Discussion:

1. Rob Russell – complimented the SUGE user group for being one of the most active and best organized Endevor user groups. (Thank you for the compliment. We have many great members who help to make this such a great Endevor user group.)
2. Joe Bigini – CA Endevor v15 beta has been going very well. Endevor v15 will include some new major features: Selective Element Backout, Endevor Web Services, and Log Delta Type.
3. Tony Cochran – upgraded to CA SCM r12.1 (from r 12). Tony had some problems with the upgrade exe so he had to upgrade manually. He tested the manual upgrade several times on a virtual system before upgrading.
4. Kevin – what topics would our members would like to see at our SUGE Fall Conference in October?
   a. Web Services – examples how to develop applications using Endevor Web Services
   b. Cloud Compiling – testimonials and user experiences from clients who have implemented the cloud compiling technology
   c. "How to install and implement CA SCM" – tips on how to plan a conversion from a competing product such as Serena.

Next SUGE Quarterly Meeting:
