To: CA Endevor® Software Change Manager Customers
From: The CA Technologies CA Endevor Software Change Manager Product Team
Subject: General Availability Announcement for Complete Release of
          CA Endevor Software Change Manager V17.0 S1412

On behalf of CA Technologies, we appreciate your business and the opportunity to provide you with high-quality, innovative software and services. As part of our ongoing commitment to customer success, we regularly release updated versions of our products. Today, we are pleased to announce that the 'complete' release for CA Endevor® Software Change Manager is now available. The incremental release program for CA Endevor Software Change Manager has formally concluded. All new features and maintenance introduced during the program have been incorporated into this 'complete' release for CA Endevor Software Change Manager V17.0 S1412.

New features for CA Endevor Software Change Manager V17.0 S1412 include:

- **Batch Environment Administration facility (Batch Admin) ENVIRONMENT name masking.** Increases efficiency in maintaining application life-cycle states/stages.
- **Package Selection List Filter for EXEC-FAILED Status.** More easily identify deployments requiring attention.
- **Master File metadata direct update (ALTER) capability.** Securely and more efficiently align software changes with transient project identifiers while helping to eliminate retired processing selections.
- **RESTful web services API.** Provides a simpler, prominent, API, with scalability, and improved performance - based on the modern HTTP protocol.

We have included a Product Brief that details the features and highlights of this release. We also encourage you to visit the CA Endevor Software Change Manager product information page on the CA Support Online website at https://support.ca.com/ for more information.
