2E Track

Terms of this presentation

This presentation was based on current information and resource allocations as of April 2013 and is subject to change or withdrawal by CA at any time without notice. Notwithstanding anything in this presentation to the contrary, this presentation shall not serve to (i) affect the rights and/or obligations of CA or its licensees under any existing or future written license agreement or services agreement relating to any CA software product; or (ii) amend any product documentation or specifications for any CA software product. The development, release and timing of any features or functionality described in this presentation remain at CA's sole discretion. Notwithstanding anything in this presentation to the contrary, upon the general availability of any future CA product release referenced in this presentation, CA will make such release available (i) for sale to new licensees of such product; and (ii) to existing licensees of such product on a when and if-available basis as part of CA maintenance and support, and in the form of a regularly scheduled major product release. Such releases may be made available to current licensees of such product who are current subscribers to CA maintenance and support on a when and if-available basis. In the event of a conflict between the terms of this paragraph and any other information contained in this presentation, the terms of this paragraph shall govern.

Certain information in this presentation may outline CA's general product direction. All information in this presentation is for your informational purposes only and may not be incorporated into any contract. CA assumes no responsibility for the accuracy or completeness of the information. To the extent permitted by applicable law, CA provides this presentation "as is" without warranty of any kind, including without limitation, any implied warranties or merchantability, fitness for a particular purpose, or non-infringement. In no event will CA be liable for any loss or damage, direct or indirect, from the use of this document, including, without limitation, lost profits, lost investment, business interruption, goodwill, or lost data, even if CA is expressly advised in advance of the possibility of such damages. CA confidential and proprietary. No unauthorized copying or distribution permitted.

Review Epics

Epic
Title

Epic
ID

Epic
Description

2E SQL enhancements bundle	E-03879	As a system architect, I'd like CA 2E to be able to take advantage of the work IBM has done to modernize the DB2 for i database with SQL and to be able to use many of the new features and functions IBM has added to DB2 for i that require the usage of SQL, this will allow more 2E customers to switch to SQL and reap the benefit of some of IBM's innovation.

Review Stories

| Epic	Story Title	Story ID	Story Description
Provide Sample Models for 2E r8.6 & r8.7 Functionality	Provide Sample Models for 2E r8.6 Functionality (Service Programs)	B-33133	I want to take advantage of the Service Programs in CA 2E and although product documentation is useful, I need real world examples of the Service Programs in the CA 2E model. This will allow me to more expediently take advantage this capability. **Acceptance criteria:** English models and instructions only. Scenario document must be created. Steps in this scenario must not prevents other sample model scenarios from being followed.

Review and voting on Epics and Stories (25 Minutes)

- Look around the room at Epics and Stories.

- Feel free to discuss with each other or with CA staff.

- How do the stories: Save time. Save money. Make money. Make you happy.

- If you **LIKE** an Epic or Story vote with one **green** dot.

- If you do **NOT** like an Epic or story vote with one **red** dot.

- If you have a question/comment, write it on a post-it, and stick it up.

- If you want to add an Epic/Story, grab some paper, write it up and stick it on the wall.

Discussion (10 minutes)

- Why did you choose the Epic/Stories you chose?

- Any Epics/Stories folks didn't like?

- How'd you like the process?

Next steps

- **During conference**
  - Keep voting.
  - Please only one dot per person per Epic/Story.

- **Visit the Idea wall**
  - During and after conference
  - Regularly (Block time in your calendar (weekly/monthly).
  - Vote on new ideas
  - Comment on ideas
  - Post your own ideas

Wrap-up

- Fill in session evaluation forms.

- Provide feedback on the **CA 2E Backlog Grooming: Retrospective** thread on the conference message board.
  - What worked well?
  - What could we do better next time?

Thanks
