

# **CM First Group**

- Information Technologies Services and Product Company
- Focus on Application Modernization on IBM environments
- Headquartered in Switzerland, Operations in USA, Italy and France
- 35 employees / over 400 customers
- CA Technologies for CA Plex / CA 2E / CA Repository
  - Sales, Services, CA SMART Certified Products
- CM First Products add value to CA Technologies Products
- Worldwide Sales through partner network

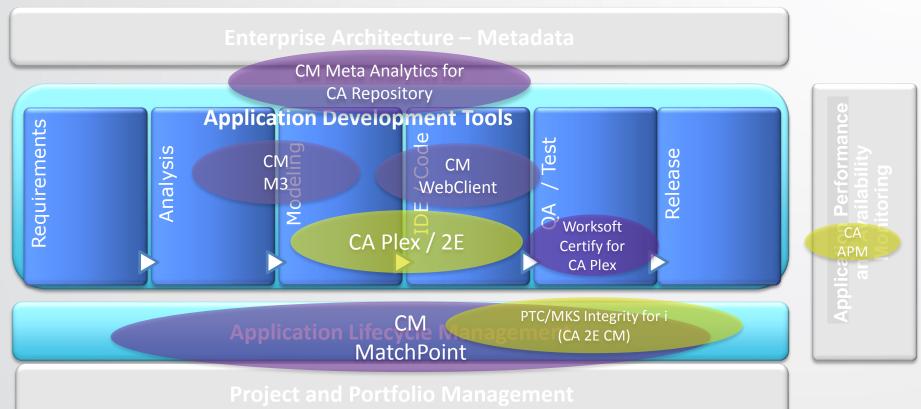

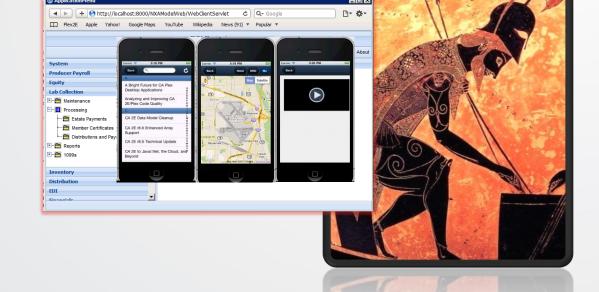

## **Application Development Solutions**

## **Training Agenda**

- Technology
- Hands On
- Wrap up

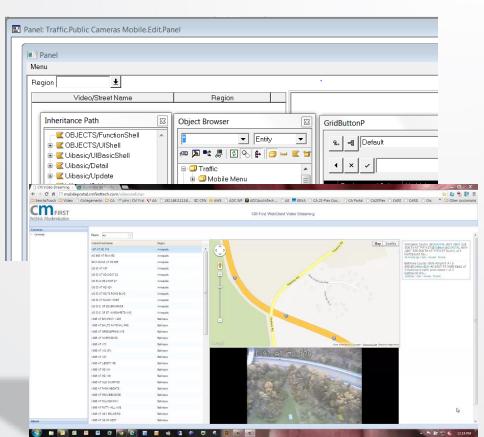

Aiax in Greek mythology

#### WebClient Code Once, with Existing

#### Skills

- = Less cost and risk
  - Foundation, Active, ...
  - OBASE (or your own)
  - Using Existing Designs
- From a Unified Code Base
  - Client-Server / 5250
  - Web
  - Mobile
- WYSIWG Page Design
  - \*within Plex limitations

#### Develop Rich, Standards Based Apps

- **Browser/Web Targets** 
  - Chrome, Safari, IE, Firefox
    - No Plug Ins!
  - Portals (Websphere, Liferay, ...)
- **Mobile Targets** 
  - iPhone, iPad, Android, BB6+, Windows
- Server Targets
  - Websphere, Tomcat, JBoss, ...
  - Any back end Plex Supports
    - .NET, Java, IBM i/p, Unix, Linux, ...

 Microsoft currently has dominant share of desktop

And will eventually have significant

"The implications for IT is that the era of PC dominance with Windows as the single platform will be replaced with a post-PC era where Windows is one of a variety of environments that IT will need to support,"

Gartner 2013

dominate

s across all

Cal 2E/PLEX

platforms by adding JavaScript and HTML5 to your desktop technology – CA Plex + CM WebClient

## **Definitions**

- Native apps are built for a specific platform with the platform SDK, tools and languages, typically provided by the platform vendor (e.g. XCode/Objective-C for iOS, Eclipse/Java for Android, Visual Studio/C# for Windows Phone).
- Mobile Web apps are server-side apps, built with any server-side technology (PHP, Node.js, ASP.NET) that render HTML that has been styled so that it renders well on a device form factor.
- Hybrid apps, like native apps, run on the device, and are written with web technologies (HTML5, CSS and JavaScript). Hybrid apps run inside a native container, and leverage the device's browser engine (but not the browser) to render the HTML and process the JavaScript locally. A web-to-native abstraction layer enables access to device capabilities that are not accessible in Mobile Web applications, such as the accelerometer, camera and Higgal storage

Rethink Modernization

# **Hybrid Predictions**

 April 16, 2013 - Gartner Recommends a Hybrid Approach for Business-to-Employee Mobile Apps

Category	Native	Hybrid	Web
Consumer	40	40	20
Enterprise	10	60	30

Table 1 Consumer/Enterprise Split in 2015 Source: Gartner (November 2012)

# Pragmatic Reasons

- Skills required you probably already know HTML and CSS (or someone at your org does)
- Code/Test once (mostly)

Rethink Modernization

Performance and capabilities generally

#### CM First Customer Example Touch Apps

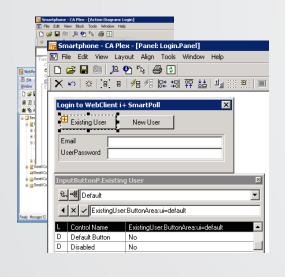

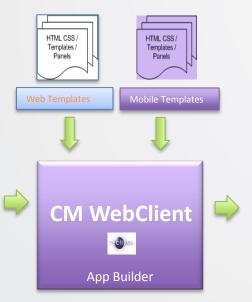

# CM WebClient Technology

# Development Architecture Overview

#### CA Plex+CM WebClient with Sencha Touch

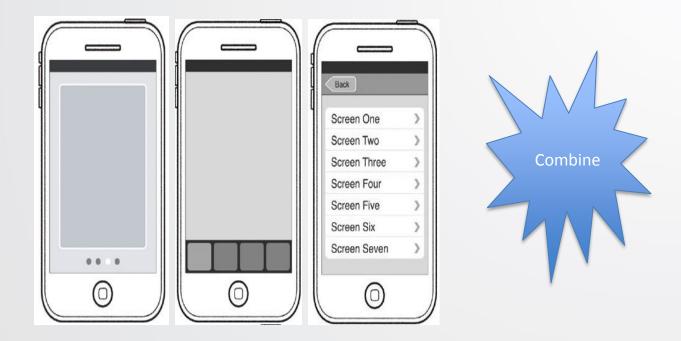

- Covers
  virtually all
  mobile
  traffic
- HTML 5, CSS3, ExtJS
- SaSS
- Local Storage
- Device JS
   (Phone Gap)

# **Navigation Models**

Principals

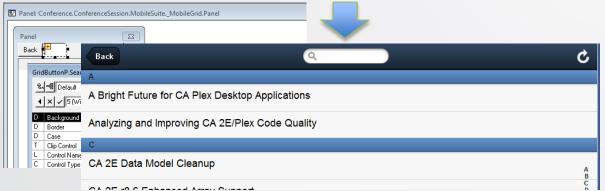

## How do we do this in Plex?

- By adding Control Name Directives
- Examples:

Search:ToolBarArea:toolbar=1:align=center:template=WebSearch

#### ToolbarArea, align, toolbarNum

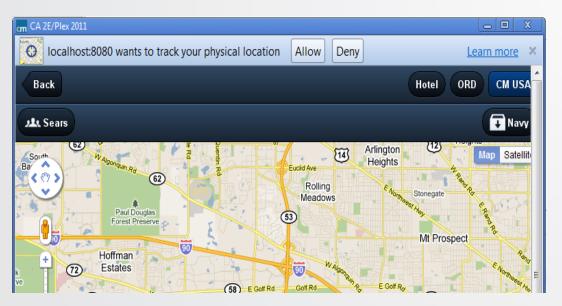

Rethink Modernization

# Map

#### Attach a map template to fields

- MapCoords:FullscreenArea:template=WebMap
- MapLocation:FullscreenArea:template=WebLocation

## Video

Attach a video template to fields Video:FullscreenArea:template=Video

#### **Mobile Features**

- Icon Menus
- Themes
- Advanced Geo
- Audio
- Video
- Email
- Address Book
- Local Storage
- Encryption
- Facebook Login

- Camera
- Signature
- Adobe Cordova (PhoneGap)
- HTML Forms
- Embedded pages
- Upload
- Mobile Service Pack Nov 2013

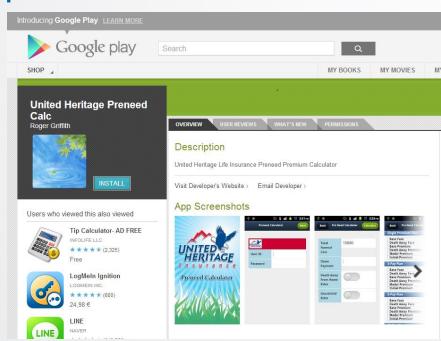

## Device Support / PhoneGap

- Wrap HTML5 app
- Device support
  - Camera, address book, etc.
- App Stores
  - Google Play, iTunes

# PhoneGap Build – <a href="http://build.phonegap.com">http://build.phonegap.com</a>

# Hands On

Cameras, Cameras Everywhere

#### **Lessons Learned**

Next time, take the train

Rethink Modernization

# Skyline Partnership

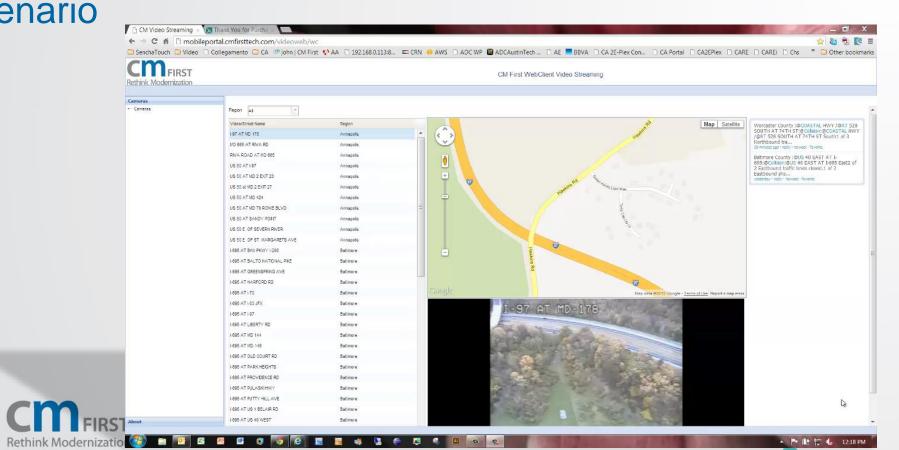

- Video streaming and sharing technology
  - Traffic Authorities
  - Law Enforcement
  - Border Protection
- Web and Mobile
  - Public Access
  - Private/Secure Access

#### Scenario
