

Q&A Session for DevTest Community Webcast - What's new in TDM 4.2

Date: Thursday, July 20, 2017

---

-sonali Gupta - 11:17 AM

Q: Hi Panelist, what does that version mean in csv file?

-Melanie Giuliani - 11:18 AM

A: this means the version of the project.-

---

-Abhinav Khanna - 11:18 AM

Q: can you please cover this [https://docops.ca.com/ca-test-data-manager/4-2/en/release-notes/known-issues#KnownIssues-FindandReserveFailsforUsersNotHavingSchemaPermissions\(Oracle\)](https://docops.ca.com/ca-test-data-manager/4-2/en/release-notes/known-issues#KnownIssues-FindandReserveFailsforUsersNotHavingSchemaPermissions(Oracle))

---

-Srini S - 11:18 AM

Q: How to connect to a specific schema for Oracle & Db2 in connection profile creation while creating Test data models?

-Melanie Giuliani - 11:19 AM

A: in terms of the oracle connection profiles, we have some limitations right now (we are addressing in the next release). –

---

sonali gupta - 11:19 AM

Q: does it depend on environment used and onces reserved wll it be reserved for both the environment for that project ?

-Melanie Giuliani 11:32 AM

A: @Sonali - Abhijit says The reservation is specific to an environment of a project-

---

-sonali gupta - 11:38 AM

Q: if a tester deletes his clone.. will it get deleted from admin's clones also?

-Melanie Giuliani - 11:38 AM

A: yes it will also disappear from the admin interface-

---

-sonali gupta - 11:45 AM

Q: Hi melanie can we have the video link on our mails... thanks

- Melanie Giuliani – 11:46 AM

A: Absolutely - I will be sending these out later today or early tomorrow to the email you used to join the webex. I will also be posting the replay to the DevTest community.
