## Course Overview

The CA Clarity r12.1 Interactive Dashboarding course offers an introduction to and details about the Interactive Dashboarding feature introduced in CA Clarity r12.1. You will learn about how to download and install Xcelsius – the tool used to build Interactive Dashboards in CA Clarity. You'll learn how to design and build an Interactive Dashboard, insert these Interactive Dashboards into CA Clarity, and different ways you can control the display of information in the Interactive Dashboards.

The course assumes a working knowledge of CA Clarity r12.0.

## What You Will Learn

- Introduction to Interactive Dashboarding
- Download and Install Xcelsius
- Design a Visualization using Xcelsius
- Include an Xcelsius Visualization in Clarity
- Include real-time Clarity data in an Xcelsius Visualization
- Make your Xcelsius Visualization secure
- Troubleshoot common problems with Interactive Dashboarding

## For Managers

Interactive Dashboarding is a new feature introduced into CA Clarity r12.1. This course is designed for those users of CA Clarity r12.1 who want to take advantage of the new functionality to build and incorporate Interactive Dashboards directly into CA Clarity.
