CA Workload Automation Advanced Integration for Hadoop

To: CA Workload Automation Customers
From: The CA Workload Automation Advanced Integration for Hadoop Product Team
Subject: New Product Announcement for CA Workload Automation Advanced Integration for Hadoop

On behalf of CA Technologies, we appreciate your business and the opportunity to provide you with high-quality, innovative software and services. As part of our ongoing commitment to your success, we regularly release new products and updated versions of our existing products. Today, we are pleased to announce that our newest product, CA Workload Automation Advanced Integration for Hadoop R12.0, is available and supported by CA Workload Automation DE R12.

This release provides the ability to add Hadoop jobs to your existing workflows, along with other traditional jobs, and enables you to monitor your end-to-end workflows from a single console without having to go through multiple schedulers. With this release, the following technologies in Hadoop can be natively integrated into your existing workload automation environment.

- HDFS Operations
- PIG
- Sqoop
- Hive
- Oozie Workflows

Please contact your CA Technologies Account Manager for pricing information. See the product documentation here: https://wiki.ca.com/wlahadoop. Refer to https://wiki.ca.com/wlade for additional information on CA Workload Automation for DE R12.
