Introduction

This is an illustration of and unexpected error from a standard link

Background

The error comes from a custom portlet based on Cost plan object with a standard link to Cost plan list

Cost Plan Portlet

Create a portlet based on the Cost plan object

The screenshot shows the 'Administration Tool' interface. On the left, the 'Grid Portlet: General' configuration is visible. It includes fields for 'Portlet Name' (z2costplan), 'Portlet ID' (z2costplan), 'Content Source' (Customer), 'Category' (Business Intelligence), 'Description' (Based on costplan object), 'Instance Type' (General), and 'Data Provider'. Below these fields are 'Number of Dimensions' and 'Number of Metrics' input boxes. At the bottom, there are 'Next' and 'Cancel' buttons, and a legend: 'Required' (red square), 'Enter Once' (green square), and 'Unique' (blue square).

On the right, the 'Select Data Provider' dialog is open. It has a title bar 'CA Clarity PPM :: Select Data Provider - Mozilla Firefox' and a URL bar showing 'http://localhost/niku/app?action=npt.selectDataProviderSort&page=1&sortColumn=name&sortDirection=asc'. The dialog contains fields for 'Data Provider Name', 'Description', 'Category' (All), 'Type' (All), 'Number of Dimensions', and 'Number of Metrics'. Below these fields are 'Filter', 'Show All', and 'Clear' buttons. At the bottom, there are 'Add' and 'Close' buttons. A table is displayed with the following columns: 'Data Provider', 'Description', 'Category', 'Type', and 'Dir'. The table contains the following data:

Data Provider	Description	Category	Type	Dir
Company	The Company Object		Object	1
Contract	Contract		Object	1
Cost of Investments	Cost of Investments	Business Intelligence	Query	1
Cost Plan	The Cost Plan Object		Object	1
Cost Plan Detail	The Cost Plan Detail Object		Object	1
Current Issues	Current Issues	Productivity	Query	1
Current Issues Listing	Current Issues Listing	Productivity	Query	1

Administration Tool

Grid Portlet: General

General
